

Fish in Comfort with Millennium ComfortMax Seats

By Bernard Williams, Magnolia Crappie Club

Summertime is a great time to be on the lake. I've discovered a seat that allows you to fish comfortable on those extremely hot summer days or just any day for that matter. No more sweaty backs; say goodbye to wet seats; this seat will not hold dew on those early morning fishing trips; it drains water even in a downpour, and it dries quickly.

This seat is unlike other seats made of exposed foam or rubber that breakdown and rot, the ComfortMax seat will excel in all temperatures and weather conditions. It comes with adjustable arm rest straps that make back support an easy adjustment. The B-100 series comes in 3 colors (Green, Gray, & White). The SW-100 comes in white.

I recommend the Saltwater (SW-100) Edition with the all-day comfort, Lumbar Support, adjustable, reclining, breathable cool fabric. This seat is UV resistant to the sun and all elements; it comes with anodized aluminum construction that's mold and mildew resistant. It folds flatter and locks down for excellent visibility while underway. It mounts to any seat pedestal and has a 400lb capacity. The 3 year warranty is one of the best on the market.

Don & I fished the championship with these seats and we loved them. It was hard to keep Don from napping. I'm glad the fish were biting; otherwise we may have had a problem. I don't recommend products that I don't use and enjoy. When you reach my age, middle 50's, comfort becomes a major issue. My back gives me problems sitting in a boat 8 to 10 hours. The ComfortMax Seat changed that; it makes fishing long hours a dream. I ordered my seats at www.millenniummarine.com. I must confess, it's well worth the investment. Don't just take my word; ask someone you see on the lake. I'm beginning to see lots and lots of them on the water. Guess the secret is out. **Bernard....**
